Pilot
Bachelor of Science in Aeronautical Science
Embry Riddle Aeronautical University
Kalani High School

EDDIE LEE

Aircraft Mechanic
Bachelor of Science in Aviation Technology Maintenance Management
Utah State University
Kealakehe High School

It wasn't too long ago when a person could land a job and climb the corporate ladder without a college degree. Today, things are different. We now live in a global economy, where college training is vital. Preparation for college starts from childhood, and educators throughout Hawaii are working hard to put children on the path to college, career and community success.

This is why Hawaii's education leaders have set a goal to have 55% of working age adults in Hawaii hold a 2- or 4-year college degree by the year 2025. As a state, we must increase the number of Hawaii adults with college degrees to meet workforce demands.

Hawaiian Airlines has pledged its support to help reach this goal. You can too. Find out how at 55by25.org.
